

## **Press release**

### *Lilith's Breed*

Melodic metal merges into mind-twisting modern music. Lilith's Breed is modern metal with one clear intention: to establish their own sound in Melodic Death Metal. The way it is supposed to be. Formed in 2016 from a project of professional guitarist Christian Attenberger and studio owner Nicolas Keller. Lilith's Breed unites traditional swedish, demanding technical and extraordinarily innovative elements. The creative offsprings of the primordial demon Lilith incorporate the styles of their great inspirers Amon Amarth, Arch Enemy, Nevermore and Opeth. A colossal review at the turn of the year 2018/2019 of undergrounded.de attests the german band 'outstanding interaction of the guitars' and 'passionately inspired melodies which enthuse the death metal heart above all dimensions'.

The ambitious band released their first studio album early 2019. Produced at Red Door Studio and Kohlekeller Studios, Germany.
